One seimale			
One seisaic Drilling Exploration Gusair No.	- Drilling at 6,064°.		
One seisale Drilling Exploration	- Drilling at 6,0644.	n 36 April was	resumed
One seismic Drilling Exploration Gusair No. 2	- Drilling at 6,064%. 2. Drilling, which was suspended of	n 36 April was	resumed
One seismic Drilling Exploration Gusair No. 3 Butmah No. 3	- Drilling at 6,064°. Drilling, which was suspended on 5 September: present depth	9,453°. ghout the mont	b. After
One seismic Drilling Exploration Gusair No. 3 Butmah No. 3	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throuseddizing, a 10% improvement in	9,453. ghout the mont	h. After te was
One seismic Drilling Exploration Gusair No. 3 Butmah No. 3	- Drilling at 6,064°. Drilling, which was suspended on 5 September: present depth	9,453. ghout the mont	h. After te was
One seismic Drilling Exploration Gusair No. 3 Butmah No. 3	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throuseddizing, a 10% improvement in	9,453. ghout the mont	h. After te was
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No. Production	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throuseddizing, a 10% improvement in	ghout the mont production ra ferred to Buth	h. After te was
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No. Production Ain Zalah av	- Drilling at 6,064°. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test through acidizing, a 10% improvement in observed. Drilling crews transposed to the served of the s	ghout the mont production ra ferred to Eutm	h. After te was
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064°. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throusedidzing, a 10% improvement in observed. Drilling crews transposerved and production - app. 27,368 rom Ain Zalah - 109,590.5 tons (809,6	ghout the mont production raferred to Euth	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064°. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test through acidizing, a 10% improvement in observed. Drilling crews transposed to the served of the s	ghout the mont production raferred to Euth	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throusedidzing, a 10% improvement in observed. Drilling crews transposerved and production - app. 27,368 rom Ain Zalah - 179,590.5 tons (809,6). coned water on 2 September and was remainder of the month."	ghout the mont production raferred to Euth barrels. 55 barrels).	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throusedidzing, a 10% improvement in observed. Drilling crews transposer daily production - app. 27,368 rom Ain Zalah - 109,590.5 tons (809,6). coned water on 2 September and was	ghout the mont production raferred to Euth barrels. 55 barrels).	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throuseidizing, a 10% improvement in observed. Drilling crews transformed and Zalah - Drilling crews transform Ain Zalah - 179,590.5 tons (809,6). coned water on 2 September and was remainder of the month."	ghout the mont production raferred to Eutabarrels. 55 barrels). closed in for	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	Drilling at 6,064°. Drilling, which was suspended on 5 September: present depth 2. 21 -The well remained on test through acidizing, a 10% improvement in observed. Drilling crews transformed adaly production - app. 27,368 From Ain Zalah - 179,590.5 tons (809,6). Coned water on 2 September and was remainder of the month." LIBRARY SUBJECT & AREA - end -	ghout the mont production raferred to Eutmobarrels. 55 barrels). closed in for	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throusedidzing, a 10% improvement in observed. Drilling crews transposerved. Drilling crews transposerved and production - app. 27,368 rom Ain Zalah - 179,590.5 tons (809,6). coned water on 2 September and was remainder of the month." LIBRARY SUBJECT & AREA - and -	ghout the mont production raferred to Eutmobarrels. 55 barrels). closed in for	h. After te was ah No. 2.
One seismic Drilling Exploration Gusair No. 2 Butmah No. 2 Development Ain Zalah No Production Ain Zalah av Dispatches 2	- Drilling at 6,064. Drilling, which was suspended on 5 September: present depth 21 -The well remained on test throusedidzing, a 10% improvement in observed. Drilling crews transposerved. Drilling crews transposerved and production - app. 27,368 rom Ain Zalah - 179,590.5 tons (809,6). coned water on 2 September and was remainder of the month." LIBRARY SUBJECT & AREA - and -	ghout the mont production raferred to Eutmobarrels. 55 barrels). closed in for	h. After te was ah No. 2.
